

What does the colour coding mean?

Long vowels **A (red)** **E (green)** **I (yellow)** **O (pink)** **U (purple)** **oo (blue)** **ow (brown)** Silent letters (white)
Tricky letters (gold) which make a different sound to what has been taught. For example, the 'a' in 'want' makes an 'o' sound. They do not show grapheme-phoneme correspondence. Phonetic letters (black)
Each sound/colour is also linked to a monster, creating highly effective audio-visual cues. Each monster makes the same sound as the graphemes of the same colour. E.g. **Angry Red A** says 'Ay, Ay, Ay'. This helps children to remember that the **long A** graphemes make the **long A sound**. For the silent white letters, the sound cue is 'Put your fingers to your lips. Ghost letters make no sound.' For Tricky letters, the sound cue is 'Tricky Witch has cast a spell and has changed the sounds which you know well, what is the sound?'

How can we help at home with phonics?

- ⇒ Talk, talk, talk!
- ⇒ Read to and with your child
 - ⇒ Sing!
- ⇒ Pronounce sounds and words correctly; for example, the sound is /m/ NOT /m-uh/ or /mmmmmm/
- ⇒ Rhyming and phonics games
- ⇒ Model blending; for example at the shop I will buy a... /m/ /o/ /p/ - mop

Please see below for some links to phonics games and further information to support your child with phonics.

Monster Phonics in EYFS & KS1

Phonics in SMH is delivered using the multisensory and engaging 'Monster Phonics' program, which is taught every morning from Nursery through to Year 2. This scheme groups the different letters and sounds into 'phases' which are then taught in a systematic way. Children are grouped from Reception to Year 2 to access the appropriate Phase work to enable them to make rapid progress to build on the letters and sounds that they already know. Your child's teacher will tell you which phase they are working on and you can access additional support material online to support your child with phonics.
