Autumn term 2021

We've had a great start to the school year with some wonderful artwork across the whole school.

EYFS

Early years are having fun exploring different materials and different ways to paint.

They will continue to explore different materials and will be creating autumnal collages using nature and exploring autumnal colours for the rest of this term.

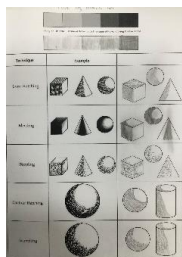

KS1

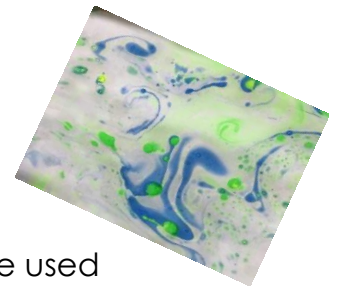

The Infants have been learning about primary and secondary colours and colour mixing. They've also been finding out about the artist Joan Miro and created some beautiful artwork using oil pastels.

KS2

The Juniors have had an exciting term using lots of different materials and developing their drawing skills. Upper KS2 are involved in a very exciting project with a local film company. They've used mixed media to create authentic looking Beatles fan-mail which will be used in a film!

HIVE

The Hive have been looking at tone and using paint to mix colours and change their tone. They will be looking at art in nature and studying the artist Andy Goldsworthy.
