

Hi! Mrs O'Neill and Miss Nelson would like to celebrate the Safeguarding highlights at **S.M.I.T.H** from last half term!

## Safety Cadets are back!

*We have started our Safety Cadets club once again on Mondays after school. Our Cadets wear their brilliant blue badges proudly, as they work tirelessly to create a safer school community for everyone.*

### Lower KS2

*As well as developing their digital communication and online safety, Year 3 and 4 have also looked at safety when crossing roads. With so many of our children collecting their 'Walk to School' badges, this message is super important!*

### Upper KS2

*Year 5 have had some fantastic discussions around social media. They were really honest about what devices and apps they are using. Year 6 have been working on their tolerance and acceptance of each other. They have discussed protecting and safeguarding their teachers, their classmates and themselves.*

### EYFS

*EYFS have done a lot of work around 'Pants are private' and looking after their bodies.*

### KS1

*Year 1 and 2 have worked really hard with their work on bonfire safety. They have also been talking about the dark nights in the winter.*

### What's to come next term...

- UKS2 will be assessing risk in a variety of different situations, including risk online.
- LKS2 will be learning all about peer pressure and how to protect themselves from outside influences.
- KS1 will be learning how to look after their bodies and to know they choose what happens to it.
- Early Years will be learning about tolerance and how to value each individual.
