

**Science**

We will investigate how forces can be varied to control movement. We learn how magnets interact and test their strength.

**History**

We will start an in-depth study of Ancient Greece, learning about the city states, government, diplomacy and wars. We will also create a timeline.

**Spanish**

We will be learning how to be polite when meeting and greeting people, and how to exchange simple information e.g. names.

**PSHEE**

We will be focusing on what it means to work as a team, how we can be a good teammate, and what to do if things don't go as smoothly as we want.

**English**

We will be exploring the book 'Seal Surfer' by Michael Foreman, using the 'Pathways to Writing' scheme, which builds on the pattern of work in Year 2. After immersing ourselves in the story, exploring vocabulary and setting we will write a letter from one character to another, and diary entries.

**Splash!**

**Maths**

We begin using what we know about pairs of numbers that total ten, to help us make totals of 100. We will place numbers on blank numberlines and use them to perform addition and subtraction calculations. 2,3,4,5 & 10 times tables will be reinforced in multiplication and division problems.

**Art**

We will learn about William Morris and the Arts and Crafts movement, sketch natural objects and design and use print blocks.

**RE**

We will explore how Christians show their beliefs, the celebration of Holy Communion and how Christians try to serve and make a difference.

**Computing**

Our main focus for this half term is internet safety, learning about guarding personal details and making safe and considerate choices online.

**Music**

We will learn songs from the story of the Trojan Horse, using the BBC 'Heroes of Troy' unit. We will look at syllable patterns in gods' names.
