

### **Science**

We will investigate how shadows are formed, and can be changed. We will classify materials as transparent, translucent opaque or reflective.

### **RE**

Our new unit focuses on what it is like to follow the Hindu religion in Britain today. We hope to visit a Hindu temple.

### **Geography**

We will be learning about 'Our European Neighbours' finding different countries and capital cities and learning about land use.

### **PSHEE**

Our 'It's My Body' unit helps children make informed choices about being healthy, including a session on good hygiene to stop disease spreading.

### **English**

We will be immersing ourselves in the world of fantasy stories, starting with the book 'Winter's Child' by Angela McAllister. We will write letters, diary entries and poems as well as our own story. We will also enjoy performing poetry and use the structure of some of these poems to write our own.

### **Autumn 2**

### **Maths**

Partitioning (splitting numbers into hundreds, tens and ones) continues to be a key skill, and the first step in doubling, halving and adding groups of two digit numbers. We will also compare and place numbers on number lines. We continue to build fast recall of times tables and describe lines and angles.

### **PE**

Taught by Miss Bennett, this half term we will be focusing on gymnastics. 3M will also have basketball on Friday mornings.

### **Design & Technology**

We will make simple moving pictures using card levers and linkages and folded card springs. Please save cereal box card for us!

### **Computing**

We will learn more about using the internet as a research tool safely, and use different apps and tools to support the wider curriculum.

### **Music**

We will be busy preparing songs for our Christingle Service, More details and an invitation to the service to follow soon.
