Heroes and Icons

Year 5 Autumn 2

D.T

In D.T., we will be learning about different types of bridges and how they are designed for strength and stability.

Then, we will use this knowledge to plan, build and test our own model bridges.

3D Modelling

In Computing, we will be learning about 3D modelling. We will explore how to create different 3D shapes, understand what real objects can be represented in 3D, and how these models can be used to plan, design and solve problems in the real world.

R.E

We are continuing our study of Islam and finding out what it means to be a Muslim in modern Britain.

Science

In Science, we are studying forces and how they affect the movement of objects.

Pupils will investigate different types of forces, including gravity, friction, air resistance and through practical experiments and observations.

Geography

In Geography, we will be studying the continent of South America.

Maths

In Maths, we will be securing our knowledge of multiplication, fractions, decimals, percentages, and their relationships.

Pupils will apply these skills to solve problems and deepen their understanding of number and proportion.

Music

In Music this half term, we will be learning about The Blues.

Children will explore the origins of blues music, listen to classic examples, and begin to understand its structure, rhythm, and mood.

English

In Guided Reading, we will continue with Holes by Louis Sachar, focusing on comprehension, character analysis, and themes.

In English, pupils will explore The Lost Happy Endings, writing their own traditional tales inspired by the story's style. The term will end with a poetry unit on Jinnie Ghost, where children will analyse poetic devices and write their own poems in the style of the author.

PSHE and Wellbeing

Our topic in PSHE this half term will be Celebrating Difference. We will be exploring what makes us unique, learning to appreciate diversity, and understanding the importance of kindness and respect towards others.

P.E

This half term, the children will be taking part in athletics. They will develop their running, jumping and throwing skills through a range of fun and competitive activities.
